Android Developer

12/2019 to 10/2020

El Noor Development

- Design and Develop Mobile Applications Using Java Language in Integration with Room Database and API Calling.
- Develop Mobile Applications using jetback Components and Dependency Injection
- Developing Android Screens using XML.
- Integrate with SQLite, Firebase and handle network permissions.

Projects

- BCVI Border Control (Manual Testing and Performance Testing)
- BCVI EResidency (Manual Testing)
- BCVI EVisa (Manual Testing)
- IDDAS (Manual Testing and API Automation Testing)
- IVPS (Automation Testing and Performance Testing)

Certificates & Courses

- [Performance Testing using JMeter.](#)
- [Mastering in Mobile automation testing using Appium.](#)
- [Cypress Web automation Testing.](#)
- [Robot Framework test automation.](#)
- [Cucumber Framework with selenium Web driver and Java.](#)
- [Testing Foundation with ITIDA.](#)
- [Certified Software Tester with ITI.](#)
- [Automation Testing \(Selenium WebDriver\) using Java:](#)
 - Java and OOP concepts.
 - Automate web application using Selenium and TestNG Runner.
 - Apply TestNG, Data Driven Test and Page Object Model Pattern Frameworks.
 - Apply Page Factory Framework.
 - Apply Behavior Driven Test framework using Cucumber.
 - Installing/Configuring Maven project.
 - Publishing the code using Git and GitHub.
 - Integrate Project with CI/CD using Jenkins Job.
- [API testing using Postman.](#)
- [Postman for manual and automation testing.](#)

Technical Skills

- | | |
|-------------------------------|-------------------------------------|
| • Test Cases, Plans & Scripts | • Acceptance Testing |
| • Test NG and Apache poi | • Tracking, Logging & Reporting |
| • Functional Testing | • User Acceptance Testing (UAT) |
| • Web Automation Testing | • Issue Identification |
| • Mobile Automation Testing | • System Analysis |
| • Desktop Automation Testing | • Database Testing (SQL) |
| • API Testing | • Regression Testing |
| • API Automation Testing | • System & Unit Testing |
| • Performance Testing | • Essentials of CI/CD using Jenkins |
| | • Software Testing Techniques |

Education

Zagazig University | Bachelor

- **Faculty:** Computers & Information
- **Major:** Computer Science
- **Graduation Year:** 2019
- **Graduation Grade:** Excellent With proud
- **Graduation Project Grade:** Excellent

Internships

- | | |
|---|--------------------|
| • Testing Foundations with ITIDA. | 05/2022 to 07/2022 |
| • Developing Applications using Google Cloud Platform with ITIDA. | 03/2020 to 05/2020 |
| • Java Programming Master Degree with National Telecommunication Institute. | 09/2019 to 12/2019 |
| • Android Development Nano Degree with ITIDA. | 07/2019 to 09/2019 |
| • InnovEgypt Entrepreneurship at TIEC in Corporate with Intel. | 07/2019 to 07/2019 |
| • Employability Skills at Aspire in corporate with AUC. | 01/2019 to 02/2019 |
| • Digital Marketing at ICDL Aribia. | 10/2018 to 12/2018 |
| • Computer Network and Cyber Security at ITI. | 07/2018 to 08/2018 |
| • Full Stack Web Development at ISCC. | 06/2018 to 07/2018 |
| • Mobile Application Development at IBM. | 07/2017 to 08/2017 |

Languages

- **Arabic:** Native
- **English:** Very Good (Writing, Reading and Speaking)

Awards

- **The Third Best Graduation Project :** faculty of computer science-Zagazig University
- **The Best Research from project :** Fifth International Undergraduate Research Conference

Military Status

- Temporary Exemption
